

IN THE WILD DOT-TO-DOT #1

Connect the dots to discover this wild animal's identity.

Each park or forest might have special rules to follow that help keep this animal wild. Ask a Ranger when you visit.

Did you know...

...this animal eats mostly grass, nuts, berries, and insects — even bees!

...this animal weighs about 8-12 ounces when born. That's the same weight of a soup can!

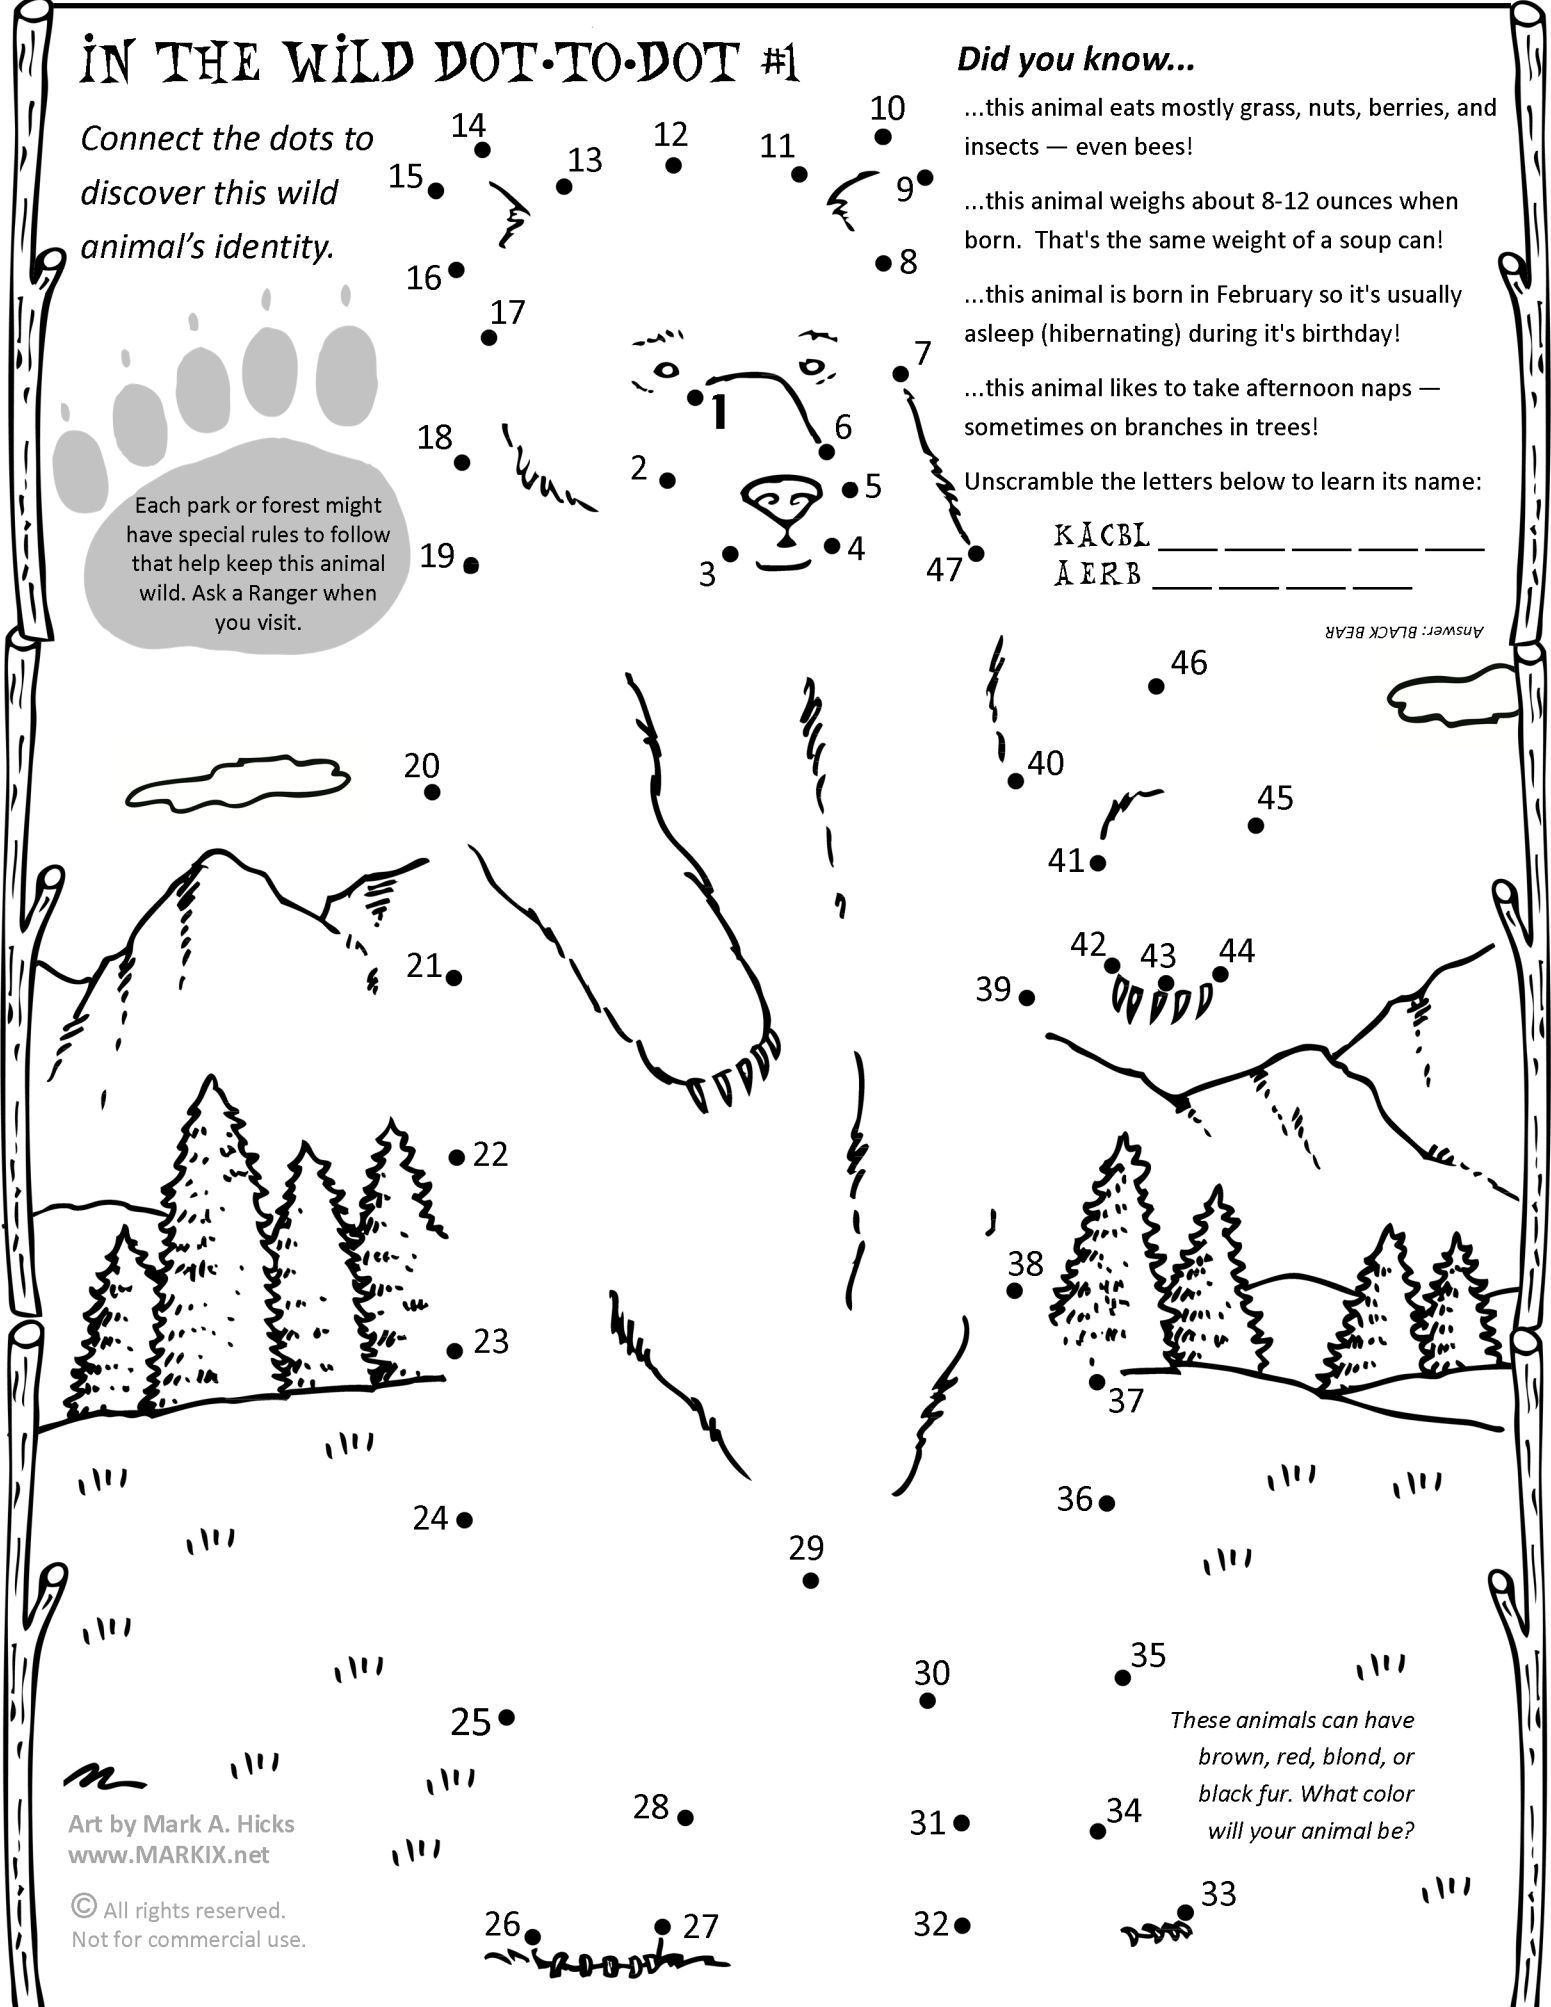

...this animal is born in February so it's usually asleep (hibernating) during its birthday!

...this animal likes to take afternoon naps — sometimes on branches in trees!

Unscramble the letters below to learn its name:

K A C B L _____
A E R B _____

Answer: BLACK BEAR
